

NOMADIX

TRANSACTIONS FROM ANYWHERE — **YES, ANYWHERE!**

NOMADIX is a core-integrated, tablet-based teller application that gives associates the power to complete almost any transaction from anywhere in the branch using a hand-held tablet device.

THESE TRANSACTIONS INCLUDE:

- Secure Teller Authentication
- Secure Client Authentication
- Full Account Level View of Client
- Receipt Reprint
- Cash Deposit
- Cash Withdrawal
- Bill Breaking
- Transferring Money
- Paying Internal Loans
- Paying Credit Cards
- Cashier's Check Printing
- Transferring Money
- Viewing Transaction History

→ WHY NOMADIX?

ENABLE THE UNIVERSAL ASSOCIATE MODEL

Wow your clients with a retail experience like no other with a tablet interface that can handle every transaction. Universal Associates can now thrive with the flexibility to move around the branch and service all client needs, instead of being stuck behind the teller line or in an office.

DECREASE BRANCH FOOTPRINTS & OPERATING COSTS

Big branches with heavy footprints, siloed employees, and extraneous peripherals are costly. **Nomadix** eliminates bulky workstations and fits a secure, core-integrated teller application in the palm of an associate's hand. Now, your branches can be smaller and your staffing model more efficient.

OFFER A BETTER CLIENT EXPERIENCE

Tablets provide flexibility for warm client handoffs between tellers and associates, creating a more modern and retail-friendly environment. Instead of leaving clients waiting in a lobby or office, staff can interact with clients anywhere in the branch.

UPGRADE YOUR SELF-SERVICE SOLUTIONS

Turn your self-service solutions into assisted or full-service solutions by pairing it with the **Nomadix** tablet interface. This makes it easy for an associate to step in if a client is having trouble or a transaction is too complex.
